EDUCATION

- **Indian Institute of Information Technology, Kota** Rajasthan, India
Bachelor of Technology in Computer Science; CGPA: 7.82/10 *July 2015 – May 2019*

EXPERIENCE

- **Walmart** Bangalore, India
Senior Software Engineer *30 Nov 2023 - Present*
 - **Product Development:** Lead development of a product which allow to ship freight capacity on Ocean Carriers. This initiative unlocks international transportation solutions for Suppliers, Marketplace, Drop-ship vendors and other Enterprises globally.
 - **Software Development:** Designed & Developed LLD and Java APIs for generating and optimizing bulk plans based on booking details and rates, created event driven ADFs with triggers and cosmos consumer feeds for pub/sub to/from kafka.*Software Engineer - III* *13 Oct 2021 - 29 Nov 2023*
 - **Product Development:** Contributed in a platform which allows users to check-in and track the order readiness in customer app and pickup orders with reduced waiting time while sending location updates to Walmart store associates.
 - **Software Development:** Created Geofence Management System(GMS) which improves vehicles or truck arrival estimations by 8.79% to and from DCs(distribution centers) or stores, calculate closest DC for trailers using fences to avoid big queues and delays impacting drivers experience, closely worked with product manager to understand the requirements and with architect for API models and system design, developed with containerized approach in Kotlin/Spring and used Cosmos DB for storage.
- **Kantar** Bangalore, India
Software Engineer *17 June 2019 - 29 Sept 2021*
 - **Software Development:** Responsible for writing, troubleshooting, testing and debugging REST APIs for Micro-services with Spring Boot. Experienced working on Spring MVC architecture
 - **Azure Data Storage & Transformation:** Responsible for maintaining ETL Workflows, data processing in Databricks with PySpark, data load to warehouse maintaining delta tables with SQL-Spark and Synapse Analytics/Azure Analysis Services.
 - **Open Source Development:** Developed several plugins using Apache Superset and MS PowerBI for data visualization.
 - **Application Development & Automation:** Developed several re-usable JAVA API's for data shipment from/to ADLS.
 - **Hackathon winner:** Developed a generic platform-independent client usage tracker tool which could be integrated over all frameworks like JAVA, .NET, python, etc for client usage analytics while considering high-level Systems Design Life Cycle.

PROJECTS

- **Gesture Recognition & Real Time Mouse Tracker System** *July 2018-Apr 2019*
Computer Vision
 - A system using convex hull algorithm and webcam recognize number of fingers shown and gestures to control the mouse.
- **Music Recommender System** *Feb 2018-July 2018*
Machine Learning
 - A system based on Collaborative Filtering Techniques to recommend artists and songs to the users using Last.fm dataset. It incorporates Memory Based Approach: K-Nearest Neighbors and Model Based Approach: Alternating Least Squares.
- **Bus Reservation System** *July 2017-Aug 2017*
Database Management System & Spring-MVC/Hibernate Application
 - A system in which user register bus tickets and can check number of seats available and the route using google map API.

SCHOLASTIC ACHIEVEMENT

- Microsoft certified Azure Solutions Architect Expert, Azure Data & AI Fundamentals and Implementing an Azure Data Solution. Cleared AZ-300, AZ-304, AZ-900, AI-900, DP-900 & DP-200.
- Ranked 1st in CS50x Coding Contest (2017) & CS50x Puzzle Day (2022, 2020, 2019, 2018) conducted by Harvard on HackerRank.
- Certified for participation in coding contest SnackDown in 2021, 2019 & 2017 conducted on CodeChef.
- Ranked 2nd in Inter-NIT MST'2K18 (team captain) in chess competition and won 2 silver medals in 2018.

TECHNICAL STRENGTHS

- **Key Skills:** Microservices(REST), Azure Services, Cloud Development, Agile Development, Back-end Development, Android Development, Linux/Unix, CI/CD , OO Design, Design Patterns, Data Processing, DSA, Computer Vision, DBMS, ML
- **Technical Skills:** Kotlin, Spring Boot, Java/J2EE, PL/SQL, NOSQL/MongoDB, Python/Django, Cosmos/SQL-API/Cassandra, R, C++, PySpark/SQLSpark, Kafka, Angular, React, AWS, Azure, Splunk, Kubernetes, Docker, Grafana, Kibana

POSITION OF RESPONSIBILITIES

- Chess team captain of IIIT-KOTA for 3 years (2016-2018).
- Contribute in community such as **Stack-Overflow**, **Github**.
